Subject: Medical Product Portfolio RoHS 2002/95/EC Exemption

The Medical product portfolio is compliant with all applicable CE directives. RoHS directive 2002/95/EC Article 2 Paragraph 1 identifies product exemptions for electronic equipment defined by WEEE Directive 2002/96/EC. Annex IA Item 9 of the WEEE Directive identifies Monitoring & Control instruments, specifically Measuring, Weighing, and Adjusting devices, as exempt status. Mesa Lab's Medical product portfolio is classified within the definition of Monitoring & Control instruments.

Mesa understands that requirement of the RoHS directive can change. As a company, we remain vigilant to comply with all regulatory requirements in the markets we serve.

Bryan Leo
